LUCIDEA

Your Legal Intranet-in-a-Box:
## Supporting the Business of Law, by Design

LawPort is the industry proven, premier legal intranet application which maps tightly to attorney workflow and integrates with critical finance, document management and CRM systems, empowering law firm IT and KM staff to maximize information resources investments across the enterprise.

Key Benefits

Ready to deliver, right out of the box

Using LawPort's powerful out-of-the-box tools, quickly and easily provide a complete representation of firm knowledge, experience, and industry / jurisdiction / geographic capabilities—no development, coding or configuration required.

Make it your own

Leverage unlimited custom fields and purpose-built data templates to meet your firm's specific needs, now and into the future.

Purpose-built for law firms

Ensure your information and content are accessible, affordable – and most importantly, relevant.

If you have an aggressive legal intranet project timeline and limited IT resources (or none at all), LawPort will support your needs immediately, and as your requirements evolve.

LAWPORT: YOUR LEGAL INTRANET IN-A-BOX

Capabilities and Impact

Supports All Stakeholders

- Accommodate all stakeholders with templated views for Administrative Departments, Practice Groups, Office Locations, Clients/Matters, People

- Whether you have 1 or 100 (Departments, Practices, Offices) everyone is included, and relevant content (in context!) is available to all

Firmwide Directory + Experience

- Provide a robust firmwide directory featuring attorneys and staff, with contact information, practice group relationships, attorney biographies, skills and experience—aggregating all the information stored in your various systems

- Capture and leverage collective firm experience, and incorporate external party expertise/working relationships

- Describe experience relevant to project staffing, improve team effectiveness, make onboarding easier, allow staff members to input/update records, and offer permissions-based access

- Analyze case trends, evaluate successes/failures

Taxonomy

- A proven, flexible taxonomy which you can use as-is, or modify to mirror existing firm KM classifications

- Includes but is not limited to, Industry, SIC Codes, Jurisdiction, Geography, and Language

- Easily publish content to the taxonomy and use the taxonomy to view all firm content from the category perspective

Insights and knowledge from your firm's systems, via a single venue—your legal intranet

- LawPort is data driven and dynamic, reflecting real time changes

- All popular legal enterprise applications are supported: Aderant, Elite, Rippe, OpenText, iManage, NetDocuments, InterAction, and more

Hassle-free Publishing

- LawPort content management is simple and does not require content managers to become web technicians

- LawPort's Publishing Wizard steps you through creating, distributing and categorizing content

- Publish once, share many times

Fully Operational and Relevant Upon Installation

- No coding or web development required; flexible and extensible without consulting or programmers

- Immediate return on investment

- Fully functional out-of-the-box and with the ability to add custom or commercial web parts anywhere, any time
